- Increase in reading levels, measured through DRA2 and tracked through LinkIt

The screenshot shows the LinkIt software interface. At the top, there is a navigation bar with icons for document, calendar, folder, folder with pencil, folder with pencil and checkmark, question mark, and gear. The LinkIt logo is on the right. Below the navigation bar, a welcome message reads "Welcome Melissa Jones" with a "LOGOUT" button. The main content area has a red header with "ts" and a close button. Below this is a "Data Entry" tab and a "View Results" tab. The "Data Entry" tab is active, showing a table for "RA" with "School: Keyport Central School" and "Class: Reading 3". The table has columns for "Fall", "Winter", and "Spring". The second row is highlighted, showing scores of 1, 28, and 28. A "Return To Summary Results View" button is visible in the top right of the table area. A large "Grade 1" watermark is overlaid on the bottom right of the table.

Central School IXL

This graph shows the relationship between time spent practicing on IXL and student improvement. It is a scatter plot with each point representing one student. The location of each point indicates the amount of time the student has spent practicing and the number of skills the student has achieved proficiency in during the selected date range. There is typically a positive correlation between the two variables, with more time spent on IXL resulting in more skill proficiency.

As students continue to spend more time on IXL, the number of skills proficient in IXL increases
